- Add Judge to Main Ring Group

Mike – Add additional judge to have a group of four for rotation. Estimated increased cost of \$3800. Could implement this for judging R12 Spotlight Futurity. Can handle the R12 Futurity judging with this method through 2009.

Using a four judge rotation will require a methodical way to draw judges for classes. The palm pilots will require a special process to be drawn up to accommodate judge changes and recording the call judge. The scorer will play a critical role in the implementation of the 4 judge system

- The 2007 show was successful. There were 700 horses at the show. Discussed sending contracts to hire the key positions for the 2008 show.

Ringmaster	Scorer
Steward/Technical Delegate	Barn Manager
Paddock Master	Awards
Music	Sport Horse/Dressage Manager
Announcer	Refreshments coordinator

- New Dressage arena needed for 2008. The dressage arena used for the past few years is a chain arena and in need of replacement. A new arena using planks is the best replacement.

2008 Look for rental or purchase of dressage arena with planks. If we purchase the dressage arena as opposed to rental, storage would be an issue. Option to store locally included Cargo containers storage at local farm Paso Fino storage facility might have room for ring storage
